SHANTANU DWIVEDI

PROFILE

I'm a Web Developer with primary focus in Front-End Development. I have a keen interest in utilizing my programming drive & artistic edge to design & develop unique web applications that are optimized to incorporate integration of optimal functionality & build performance with my code base, while exhibiting the same high quality in aesthetic User Interface Design. I strive to get ahead of the booming industry trends and create fascinating apps for personal or commercial use that solve problems and showcase creativity flawlessly.

EMPLOYMENT HISTORY

Freelancer at UpWork, Remote

June 2022

- Developed applications and mock projects for customers using various frameworks and libraries including React, Next.js and Vue.js.
- Assisted clients with redesigning their projects on CMS like WordPress.

Sales Lead at Preeminent Solutions, Cherry Hill, NJ

May 2020 — July 2020

Assisted a renewable energy company with customer retention and acquisition related operations. Converted homeowners to customers by educating them about non-renewable energy, local air-quality and their utility supply options as call-to-action.

Assisted with team management as a secondary role.

Food Delivery Driver at Grubhub, Ashburn, Virginia

July 2020 — April 2022

Transported food from merchant and delivered to customers.

NFT Artist at Self-emloyed, -

June 2019 — August 2022

Created digital pieces using many different art forms and published them as Non-Fungible-Tokens (NFTs) on the blockchain, available for purchase through crypto transactions.

TheEliteReapers - Profile | Rarible // Utility NFTs for Sale

NFT_SeanDecoded - Profile | OpenSea // Personal Collection for Display and Sale

Telecommunications Sales at TLS, Lake Worth, FL

June 2016 — July 2019

Utilized communication skills over the telephone to educate and retain potential clients (local business owners) who would be interested in having their business's google listing ranked.

Delivery Driver at Paisanos, Herndon, VA

June 2018 — June 2018

Shantanu Dwivedi

5715994889

Successfully transported orders from production(restuarant) to customer in a timely fashion.

Dropshipping at Self , Ashburn, VA

January 2019 — September 2019

Successfully set up and executed two single-product shopify stores with unique marketable products, including work-protection gear such as cut-resistant gloves as well as outdoor sporting gear such as skate/ski-shoes.

EDUCATION

Mechanical Engineering, University of Massachusetts at Amherst, Amherst

June 2015 — December 2019

Successfully acquired over 80 credits in the Engineering School in classes including Thermodynamics, Statics, Probability & Statistics, Multi-Variables & Differential Equations, Advanced Calculus and more.

Engineering, Northern Virginia Community College, Sterling, VA

June 2018 — August 2018

Successfully acquired 12 transferable credits at NOVA community college in Loudoun County, Virginia while facing health complications that restricted physical mobility.

LINKS

LinkedIn Twitter Github Logo Design Web Marketing Coffee Shop Website Discord Painting OpenSea NFTs
